Work Experience

Johns Hopkins Applied Physics Laboratory, Computer Science Intern — Summer 2022

Contributed to 2 projects. (1) Chief Digital and Artificial Intelligence Office aircraft readiness model: testing, evaluation, and benchmark model development; (2) Airborne Collision Avoidance System (ACAS): designed and deployed a full stack web application for use in the development of ACAS software.

NASA Jet Propulsion Laboratory, Software Engineer Intern — Summer 2021

Developed software to monitor telemetry data traveling through NASA Deep Space Network and created an interactive webpage for visualizing and accessing the data in real time, intended for real world use on vehicles such as NASA Mars Perseverance Rover.

Previous Research Experience

Characterizing Social Media Narratives, CMU CASOS Lab — Sept 2022 - May 2023

Senior Thesis Project, Advised by Kathleen Carley

Analyzed Twitter data to identify patterns in the linguistic and psychological cues that different actors tend to use, in order to understand how this shapes their influence over online communities

Adversarial Job Scheduling in Network Functions, CMU SNAP Lab — Jan 2021 - Aug 2022

Advised by Justine Sherry and Weina Wang

Studied packet-scheduling algorithms that mitigate the damage of algorithmic complexity attacks (ACA) and led a project to explore the theoretical implications of using heuristics for packet job size estimation

Bias in ML Algorithms, CMU CHIMPS Lab — Aug 2020 - Dec 2020

Advised by Jason Hong, Motahhare Eslami, Ken Holstein, Hong Shen

Developed research questions and interview protocols to study how people search for, identify, and respond to bias in machine learning algorithms, with the goal of creating a crowd audit platform

Teaching Experience

Data Science in the Wild (CS 5304 @ Cornell Tech), Teaching Assistant — Spring 2025

Mathematical Foundations for Computer Science (15-151/21-128 @ CMU), Teaching Assistant — Fall 2021

Taught two recitation sections per week, held weekly Office Hours, designed exercises, prepared & taught exam review sessions (to 200 students each time)
